

Standard linear bushings

**Standard linear bushings,
R0600 closed, no wiper seals****Standard linear bushings,
R0602 closed, with wiper seals****Design**

- Hardened and machined outer sleeve
- Steel ball retainer (shaft diameters 3 to 10 with plastic ball retainer made of POM¹⁾ or PA²⁾)
- Balls made of rolling bearing steel
- No wiper seals, come with integrated steel retaining rings; higher temperatures allowed with shaft diameters 12 and higher
- Integrated wiper seals for high contamination
- Closed, for self-supporting shafts

Shaft Ø d (mm)	Material number		Weight (kg)
	No wiper seal KBM- ...	With two wiper seals KBM- ... -DD

1) Determined from working bore diameter and shaft tolerance statistics. Recommended housing bore tolerance: H6 or H7.

The dynamic load ratings are based on a total travel of 100,000 m.
When based on 50,000 m, the C values in the table are multiplied by 1.26.
