

Linear sets with super linear bushings , tandem

**Linear sets, R1085 Closed**

**Linear sets, R1032 Adjustable**

**Design**

- Lightweight precision tandem housing (aluminum)
- Two super linear bushings 
- Top wiper seals
- Reference edge (for tandem linear set, adjustable)
- Relubricatable

- 1) Clamped (fastened) in relation to Ø d.
- 2) Shaft diameter 50: Tolerance ±0.2
- 3) ISO 4762-8.8 fastening bolts.
- 4) Pin centering.
- 5) Load rating when both linear bushings are under equal load.  
The load ratings apply for the main load direction.  
If the load direction is not the main load direction, the load ratings must be multiplied by the following factors:

Ø d 10 to 16:  $f = 0.82, f_0 = 0.86$

Ø d 20 to 50:  $f = 0.82, f_0 = 0.78$

**Note on lubricating R1085 linear sets:**  
Only lubricate on shaft and until lubricant comes out of vent hole.

The dynamic load ratings are based on a total travel of 100,000 m.  
When based on 50,000 m, the C values in the table are multiplied by 1.26.
